

# K4Community Smart Home

## Smarter Living at Your Community

Enjoy ultimate comfort and independence with K4Community Smart Home.

Effortlessly control your environment — including lighting and temperature — using Voice, K4Community Plus or with a remote.

### Lighting

**In-Wall Motion Light Switches** allow for full control of lights and automated scenes to support safety.

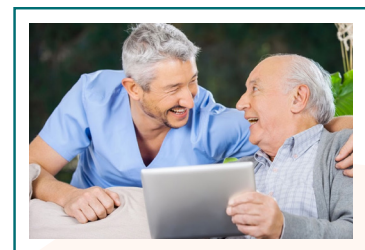

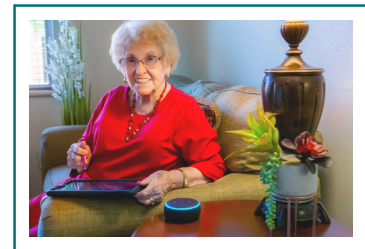

### Temperature

**Senior-Friendly Thermostat** powers smart control of residence temperature and allows for automated scenes.

### Capabilities

The options for smart living are endless:

- Adjust the thermostat without getting up
- Turn on lights in the kitchen from another room
- Set the bathroom light to turn on when you enter
- Ask Alexa: *“Alexa, turn on the bedroom light”*
- And more!

Control your lights and thermostat using your phone, Amazon Alexa, a remote or with motion!
